Commissioners:

I am a 72 year old senior citizen living in Tucson, Arizona. I live on a very small fixed income and I have to be very careful about my expenses. I am very frugal with my spending. I am opposed to the huge rate increase that Tucson Electric Power has requested to pay for the renewable energy projects that they have chosen to invest in.

An increase of 10% to 15% will be a heavy hit to my monthly budget and may affect my ability to afford air conditioning in the hot months. It appears to me that Tucson Electric Power should not be allowed to pass that large a rate increase on to the public. I certainly cannot afford it. I have been able to support myself without assistance on my small Social Security income up until now. I do not wish to be forced to seek outside assistance. I have been very careful with my spending. I believe that Tucson Electric Power should have been more careful with theirs.

Please do not grant this excessive rate increase to Tucson Electric Power.

Very truly yours,

Leo Kohler
